Item no.	Material	photo
SP-V90	304 Stainless Steel (SUS316 By order)	A 3D CAD rendering of a stainless steel bracket. It features a flat base plate with two elongated slots. Two vertical arms extend from the base, each ending in a circular ring. The rings are slightly offset from the base. The material is a light gray, representing stainless steel.
SP-57 (Mini Spider)	304 Stainless Steel (SUS316 By order)	A photograph of the SP-57 bracket, also known as a Mini Spider, mounted on a wooden surface. The bracket is made of polished stainless steel. It has a central vertical post that is secured to the wood with four screws. Two horizontal arms extend from the post, each holding a circular ring. The rings are positioned to hold a thin, transparent material, likely a piece of glass or acrylic. The background shows a wooden wall and a wooden table.
