

GCC[®] Adjustable Shelf Grips

- Suitable for glass and board shelves from 3mm to 25mm thick.
- For shelves up to 250mm deep.
- One screw wall fixing.
- One screw thickness adjustment.
- Simple and easy to use.
- Use in home, office, workshop, store.....etc.
- Ideal applications: telephone-speakers-bathroom-kitchen-alcoves.

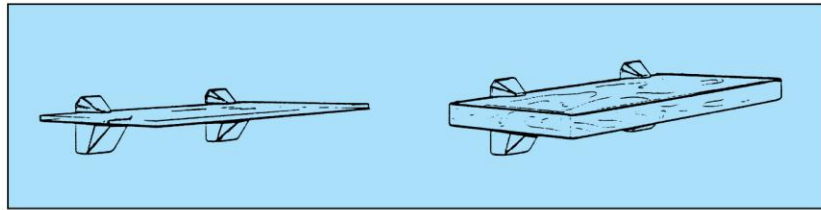

FIXING INSTRUCTIONS

1. Loosen adjusting screw (A) to expose wall fixing hole.
2. Mark position on wall and level to other shelf grip, no further than 400mm apart.
3. Drill hole using 8mm masonry bit, to the depth of the screw. Insert wall plug to be level with or just below the wall surface and screw in firmly.
4. Fit plastic cap (B)
5. Fit shelf ensuring that it is fully located to the back of the shelf grip.
6. Tighten adjusting screw (A) to grip shelf firmly.

* The quality and thickness of the shelf, the number of shelf grips and the type of wall will affect the loading capacity.
